ELIO® Fiber Optic Technology

Presentation

- Today's technology for Airborne & Military equipment is more and more complex, requiring the management of an increasing flow of information at greater speeds combined with the necessity to save weight.
- In response to this need, SOURIAU offers a wide range of copper and fiber optic solutions for high speed networks in harsh environments.
- Fiber optic is the best solution when high data-rate, EMI immunity and weight savings are required.
- The ELIO® terminus can handle data speeds from several Mbit/s up to several Gbit/s thanks to its excellent optical performance in the most severe environments. Its unique user-friendly design and its versatility accounts for the selection of ELIO® by major customers in various markets for their fiber optic applications.

A complete optical solution

- Backshells: Souriau has developed a dedicated backshell range to ensure the best optical performance
- Harnesses and Patchcords: Souriau offers support from design through manufacturing

ELIO® Fiber Optic Technology

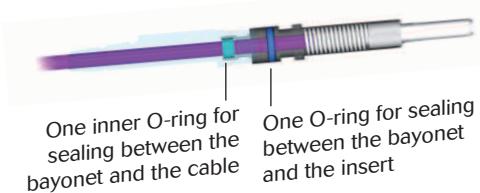

Features & benefits

Ruggedized

Sealed technology

- IP67: without backshell

Robust butt-joint contact

- Flight proven A380
- Standardized worldwide (ARINC 801 Appendix C, EN4531, Airbus qualified)
- Withstanding the most severe vibration levels (A400M)
- Excellent optical performances

User friendly

Easy to clean

- Easy to clean terminus without removing any part of the connector
- Easy access to the end face of both male and female contacts
 - No risk to damage the sleeve when cleaning
 - No risk to capture dust inside the sleeve cavity

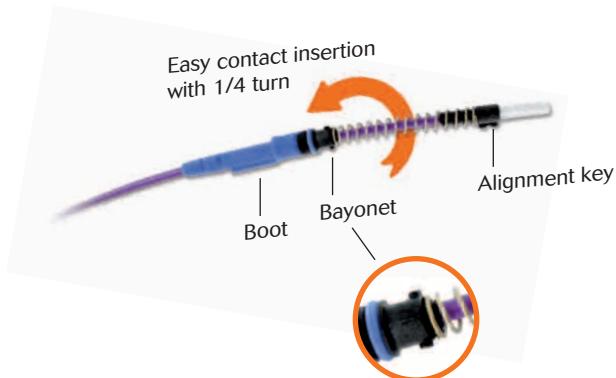

► MIL-T-29504
Optical faces not accessible for cleaning in female insert

► MIL-DTL-38999/EN3645
Souriau ELIO® connector
Optical faces accessible for cleaning !

Easy to install, no tool needed

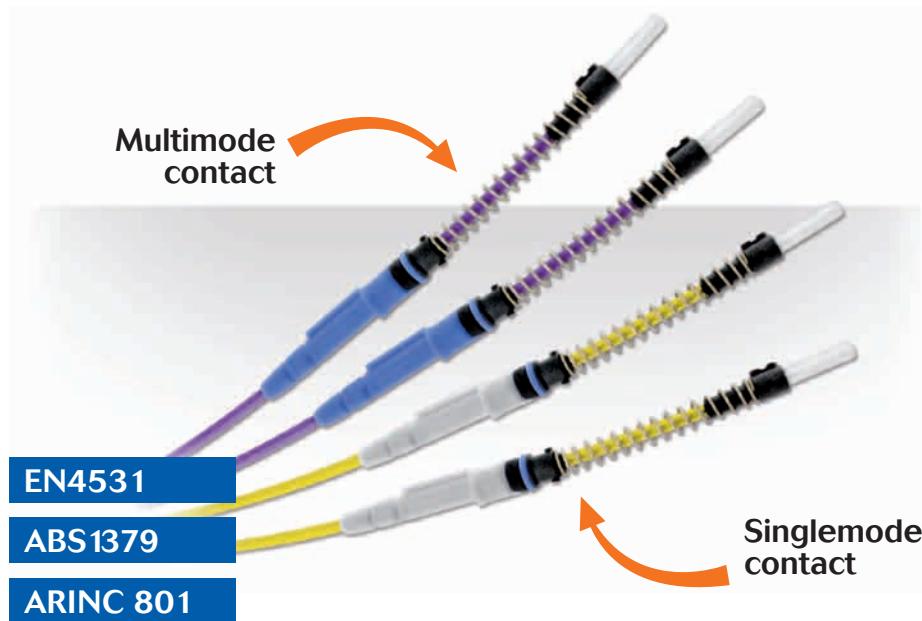

- Terminus easy to install thanks to the bayonet-boot feature

Easy to terminate, less than 5 min

- Hermaphroditic terminus (same in receptacle and plug)
- ST®-like termination procedure
- Automatic polishing tools available

ELIO® Fiber Optic Technology

ELIO® contacts multimode & singlemode

- Robust spring-loaded butt-joint optical contact using ST style ferrule (diameter 2.5mm)
- Contact size equivalent to a #16 contact
- Anti-rotation of the contact for better vibration withstandability and optical performance
- Boot-grommet for rear sealing and protection of the cable against excessive bending
- Compatibility with loose and tight structure cables
- High level optical performance even after aging
- Bayonet locking system: no tool needed for mounting/dismounting
- Compatible with singlemode, multimode and POF cable

Technical features

Mechanical

- **Endurance:**
Minimum 500 mating / unmating operations
- **Shock:**
300 g, 3 ms as per EN 2591-6402 method A
- **Vibration:**
In MIL-DTL-38999 Series III/EN3645 connectors:
- Sine 5Hz to 3000Hz as per EN2591-6403 method A
- Random as per EN2591-6403 method B
- **Cable cyclic flexing*:**
100 cycles, load 40N as per EN2591-609
- **Cable pulling*:** 111N
- **Cable torsion*:**
100 cycles, load 40N as per EN2591-611

Environmental

- **Salt spray:**
See the connector standard
- **Temperature range*:**
- 65°C to +125°C (1000 hours)

- **Rapid temperature change:**
10 cycles - 65°C / +150°C (30min/30min)

- **Air leakage:**
Max leakage 16 cm³/h, 2 hours,
40kPa differential pressure

- **Damp heat and low temperature:**
5 cycles of 48h -65°C/+70°C with stage at
40°C with 95% of humidity as per
EN2591- 6303 method A

Optical

- **Multimode contact - Insertion Loss (IL):**
0.1dB typical
< 0.3dB over 95% of the samples as per
EN2591-601,
< 0.7dB maximum on 100% of the
samples after tests

- **Multimode contact - Return Loss (RL):**
> 21dB before and after tests as per
EN2591-605

- **Singlemode contact - Insertion Loss (IL):**
0.3dB typical
< 0.5dB over 95% of the samples as per
EN2591-601,
< 0.9dB maximum on 100% of the
samples after tests

- **Singlemode contact - Return Loss (RL):**
> 55dB typical and > 50dB minimum

Resistance to fluids as per MIL-DTL-38999/EN3645 standard

- **Fuel:** JP5

- **Mineral Hydraulic fluid:**
MIL-PRF-5606 (NATO H-515)

- **Synthetic hydraulic fluid:**
AS1241 (Skydrol 500B4, LD4)

- **Mineral lubricant:**
MIL-PRF-7870 (NATO O-142)

- **Synthetic lubricant:**
MIL-PRF-23699 (NATO O-156),
MIL-PRF-7808 (NATO O-148)

- **Cleaning fluid:**
MIL-PRF-87937 diluted, Propanol,
white spirit, Azeotrope R113 + Methanol

- **De-icing fluid:**
AMS 1424 (NATO S-742)

- **Extinguishing fluid:**
Chlorobromomethane

- **Cooling fluid:**
Coolanol

Recommended cables

SOURIAU can offer a wide range of cables in its assemblies, from low cost to high performance aeronautical cables. ELIO® contact is compatible with singlemode and multimode cable, with tactical and breakout cable. ELIO® contact is suitable with loose and tight structure cable.

See "Harnesses & Patchcords" page 25.

All dimensions are in millimeters.

ELIO® Fiber Optic Technology

Multimode Contact

MIL-DTL-38999 Series III/EN3645 ELIO® high density insert with multimode contact

- Standard MIL-DTL-38999/EN3645 shells without shielding ring (aluminum, composite, stainless steel, bronze)
- Environmental performance as per EN4531 based on MIL-DTL-38999/EN3645
- Temperature range: - 65°C to + 125°C (cable limitation)

Applications

• Fiber optic connector for all military and aeronautical applications wherever severe vibration or mechanical resistance are required.

ELIO® Fiber Optic Technology

Multimode Contact

MIL-DTL-38999

Series III/EN3645

with ELIO® multimode contact
and ELIO® AQ Adaptor for
Quadrax #8 cavities

- ELIO® AQ is an adaptor to enable the ELIO® contact to fit in any #8 cavities
- Multiple possibilities to mix optical and electrical signals in the same insert
- Compatible with standard MIL-DTL-38999 Series III/EN3645 connectors (aluminum, composite, stainless steel, bronze)
- Design ensures ELIO® optical performance
- Environmental performance as per MIL-DTL-38999 and EN3645 standard
- Temperature range: - 65°C to + 150°C (cable limitation)

Applications

- Fiber optic connector for all military and aeronautical applications wherever severe vibration or mechanical resistance are required.

ELIO® Fiber Optic Technology

Harness & Patchcord

- The dedicated R&D optical team supports your specific needs from pre-project to full industrial release with adapted solutions: Technical and economical analysis with the customer, design and development of optical solution, deployment support (work instruction, field training, installation procedure) and robust after sales support.

- There is a strong relationship between the optical connector, fibre termination and harness assembly; Thanks to its in house fibre optics assembly line, Souriau supports our customers from the design stage to supplying a wide range of fibre optic assemblies.

- 100% of harnesses and patchcords are tested with interferometer to check the positioning of the fiber inside the ferrule.
- 100% visually inspected under microscope.

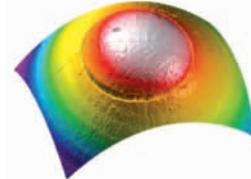

- 30 years of experience in designing fiber optics connectors harnesses
- Test lab able to realize mechanical, environmental, climatic tests
- Reactivity: in house production line close to the design office
- Souriau can terminate, polish and test many harsh environment and commercial grade connectors including:
 - EN4531 ELIO® contact
 - MIL-PRF-29504
 - ST
 - LC
 - FC
 - SC
- If your need is not shown in tables pages 27 to 29 or for more complex assemblies, please consult us.

- While deploying a fibre optic based solution, most of the concerns are focused on the harshest environments.

- Military or aerospace jumpers, highly exposed to extreme acceleration, deceleration with shock, vibration and environmental constraints like dust and contaminant, are a perfect example where know-how and experience are key to providing a cost-efficient and sustainable solution.

Interferometry

Technical measurement that calculates the topography of a surface.

The system gives in 3 dimensions the observed surface with curves similar to levels of a geographic map. As a result it is possible to get the geometric parameters of the optical contact with an extreme accuracy.

Ordering information

Patchcord combination code:

XXXX: See tables p.27 to 29

HA02	XXXX	XXX	M	A
------	------	-----	---	---

Patchcord length:

In meter when possible. Examples:

- for a 3 meter assembly, use 003(M) and not 300(CM)
- for a 3.5 meter assembly, use 350(CM)

Length unit:

M: Meter

CM: Centimeter

Patchcord version index

Note: To create your patchcord part number, select your patchcord combination code in tables p.27 to 29 (1st contact - 2nd contact - Fiber Optic cable) and the length of your assembly on 3 digits in meter (M) or centimetre (CM). You must use meter when possible (see examples above).

ELIO® Fiber Optic Technology

Harnesses - Recommended cables

SOURIAU offers a wide range of cables, from low cost to high performance aeronautical cables.

ELIO® Fiber Optic Technology

Backshells

Type 1: Adaptor for use with a standard 38999 Series III/EN3645 backshell. Caution is necessary in the choice of the standard backshell: it must allow enough room to accommodate the push back of the cable during the connector mating.

Type 3: Backshell with cable gland suitable for tactical cables only. Adapted to sealed and high mechanical retention applications. See table p.32 for dimension code depending on the shell size and the cable diameter.

Type 2: Backshell for straight or right angled heat shrink boot (not supplied), suitable for tactical cables or protection tubes for example. Adapted to sealed and low mechanical retention applications.

Type 4: Backshell derived from Type 3 without the cable gland. Suitable to adapt specific male threaded adaptors (not supplied) for ANAMET or PMA tubes for example. See table p.32 for the size of the female thread depending on the shell size.

Ordering information

Type:

- 1: Adaptor for standard 38999 Series III/EN3645 backshell (standard backshell not supplied)
- 2: Backshell for straight or right angled heat shrink boot (heat shrink boot not supplied)
- 3: Backshell with cable gland. See table p.32 for dimension code.
- 4: Backshell for specific male threaded adaptor for PMA or ANAMET tubes for example (not supplied).
See table p.32 for thread dimensions

Angle:

A: Straight

For other angle, please consult us.

Coupling ring:

F: Non self locking type

For other system, please consult us.

Shell size: 09, 11, 13, 19, 25

Material & Plating:

W: Aluminum plated with Olive drab cadmium over electroless nickel - Salt spray 500 hours

F: Aluminum plated with Electroless nickel

A: Aluminum black anodized - Salt spray 500 hours

B: Bronze

Dimension code:

01: Only for Type 3, see table p.32

No digit for other types.

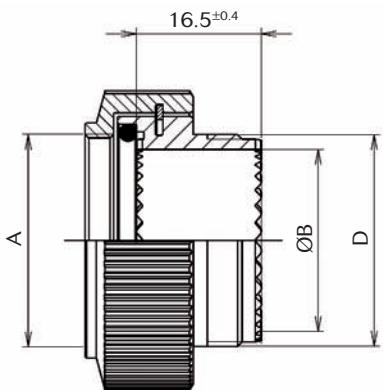

8DABE 3 A F 13 F 01

ELIO® Fiber Optic Technology

Insertion & extraction tool

The insertion & extraction tool for ELIO® contact **with boot** is compatible with previous and new ELIO® contact versions.

80WV-0059A

The insertion & extraction tool for ELIO® contact **without boot** is compatible with previous and new ELIO® contact versions.

80WV-0060A

Filler plug & Dummy contact

MIL-DTL-38999 Series III/EN3645 - for high density cavities

Male filler plug
ELIO AFPP

Female filler plug
ELIO AFPS

ARINC 600 Series - for Quadrax #8 cavities

Male dummy contact
ELIO A 001

Female dummy contact
ELIO A 002

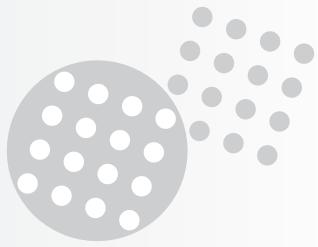

ELIO® adaptor for ST polishing fixture

With this adaptor, turn your ELIO® contact into an ST contact and save costs using standard ST polishing fixture.
Part Number: ELIOAST

ELIO® Fiber Optic Technology

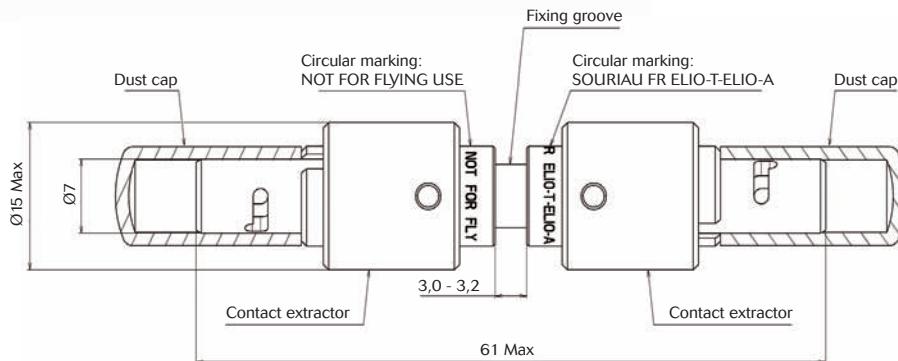

ELIO® coupler

The ELIO® coupler is a tool used to measure optical losses of multimode and singlemode ELIO® jumpers without introducing a bias in the measurement due to the connector's influence and without having to pull on the cable to remove the contact from the tool.

Delivered with dust caps. NOT FOR USE IN FLIGHT.

Part number: ELIO-T-ELIO-A

The operating instructions and the cleaning instructions are described in **BT255A** Instruction sheet.

ELIO® mechanical splice

ELIO® sealed contacts terminated with the ELIO® cabling kit and connected through the ELIO® mechanical sleeve is a reliable and sealed solution to repair damaged optical links.

Part number: **ELIOELIO**

Note: Heatshrink boot and ELIO® contacts to be ordered separately.

Universal test connector

This connector can be connected to any other polarization. Ideal to limit the number of test leads.

The connector is customized with a green band and with a red band on the main polarization key to facilitate the mating.

Part Number:

Build your part number using the polarization letter «U» (see page 14).

NOT FOR USE IN FLIGHT.

All dimensions are in millimeters.

ELIO® Fiber Optic Technology

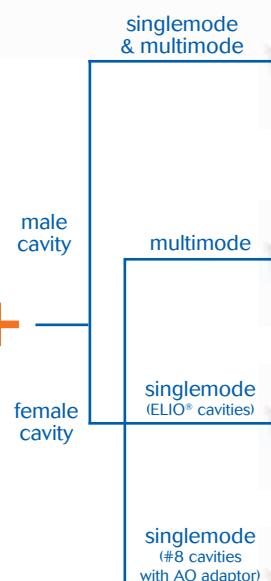

ELIO® end face inspection tool

Barrel assembly
Part Number: FBPP-BAP3

Accessory to adapt ELIO® adaptors on the probe.

SOURIAU and JDSU teamed to develop a contact end face inspection tool suitable for use with ELIO® / EN4531 / ARINC801 technology.

Inspect before you connect.

Proactive inspection and cleaning can prevent poor signal performance and permanent damage to the contact end face.

ELIO® male tip

Part Number: FBPT-U25M-N

To inspect male singlemode & multimode ELIO® contacts in all connector styles, ELIO® male contact in AQ adaptor & ELIO® patchcords (adaptors to be used with barrel assembly FBPP-BAP3)

ELIO® female tip

Part Number: FBPT-ELIO

To inspect female multimode ELIO® contacts in AQ adaptor & ELIO® patchcords (adaptors to be used with barrel assembly FBPP-BAP3)

ELIO® female tip

Part Number: 80WL0040A

To inspect female singlemode ELIO® contacts in all connector styles (adaptors to be used with barrel assembly FBPP-BAP3)

ELIO® female tip for AQ adaptor

Part Number: 80WL0042A

To inspect female singlemode ELIO® contact in all AQ adaptor cavities (adaptors to be used with barrel assembly FBPP-BAP3)

Rugged contact inspection kit

Datasheet and user manual available at: jdsu.com/inspect
Part Number: FBP-ELIO-1

Dual magnification (200x/400x) probe and small rugged handheld display.

Contents:

- + HD3 display
- + 200/400x FBP analog probe
- + barrel assembly FBPP-BAP3
- + female ELIO adaptor FBPT-ELIO
- + male ELIO adaptor FBPT-U25M-N
- + soft case

Automated contact inspection kit

Data sheet and user manual available at: jdsu.com/inspect
Part Number: FBP-ELIO-2

Kit to be used with a PC or laptop to determine the acceptability of optical end face through automated inspection and analysis.

Contents:

- + 200/400x P5000 digital probe
- + barrel assembly FBPP-BAP3
- + female ELIO adaptor FBPT-ELIO
- + male ELIO adaptor FBPT-U25M-N
- + soft case

ELIO® Fiber Optic Technology

ELIO® blind inspection tool

The **blind inspection tool** is developed for faster and safer termini inspection in mass production environment and field use.

- **Fast:** It enables blind inspection thanks to a long guiding. Same inspection tip for the female and male insert.
- **Safe:** There is no risk of damaging with the probe tip the close-by termini or a ferrule.
- **User friendly:** Control with one hand. The tool remains fixed on the connector during inspection.

The blind inspection tool is delivered by Kit for each layout, consisting of male and female puck. The Blind inspection tool is dedicated to MIL-DTL-38999 Series III/EN3645 with ELIO® high insert density.

Inspection tool
Barrel assembly
Part Number: FBPP-BAP3

Accessory to adapt ELIO® adaptors on the probe.

Layout 11-02
Kit Part Number: 80WL-0036

Layout 13-04
Kit Part Number: 80WL-0037

Layout 19-08
Kit Part Number: 80WL-0038

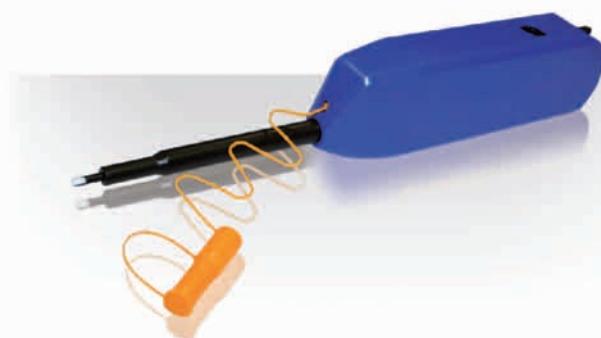

Layout 21-12
Kit Part Number: 80WL-0043
Limited availability, please consult us.

Layout 25-24
Kit Part Number: 80WL-0039

ELIO® cleaning pen

Standard cleaning pen for 2.5mm ceramic termini

- Simple pushing motion to engage tool
- Audible CLICK to alert operator when tool is fully engage
- Dry & large cleaning strand eliminates the need for solvents to be effective
- Contaminates such as alcohol, water, skin oil, vegetable and hand lotion residue as well as graphite and t-shirt lint are lifted from the connector end face

Souriau recommends IBC™ Brand Cleaner M250 from USConec for cleaning the ELIO® termini.

ELIO® Fiber Optic Technology

Range Extension

■ Electro optic conversion with Protokraft	42
■ VGE1 Series with ELIO® contacts	42
■ 8XE Series with ELIO® contacts	43
■ 8D hermetic ELIO® feedthrough	43
■ Optical connectors website	44
■ ELIO® training	44

ELIO® Fiber Optic Technology

Range Extension

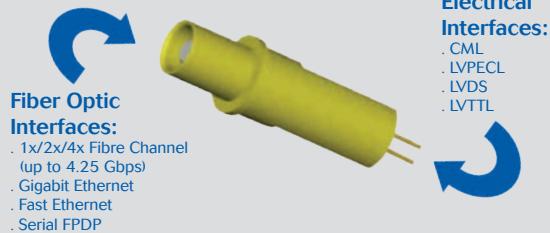

Electro Optic Conversion with Protokraft

Souriau and Protokraft combine Souriau's high performance ELIO® Fiber Optic Contact with Protokraft's Optical Transmitter and Receiver Technology.

High performance:

- . Simplify avionics platform design
- . Improve optical network performance and reliability.

Protokraft Magnum:

VGE1 Series with ELIO® Contacts

Rugged Fibre Optic Solutions for Railways.
The solution for very high speed data transmission in parasitized environment.

Reliable to railway standards. Tested according to:

- . Fire & smoke standards (NFF61030).
- . ELIO® optical contact, field proven over 10 years.

Easy to install:

- . No tool needed.

Standard connector:

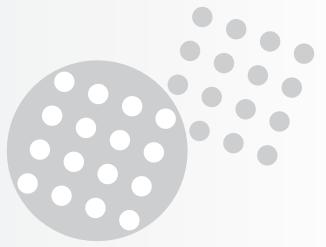

- . Same shell as electrical version according to VG95234.

Fibre versatility:

- . Contacts designed for singlemode and multimode fibre.

ELIO® Fiber Optic Technology

Range Extension

8XE Series with ELIO® Contacts

The ELIO® optical technology fits now the 8XE range to offer a ruggedized fiber optics for geophysics, oil & gas, offshore applications.

8XE Series = Overmolded 851 Series:

- . High impact glass filled plastic offering a great impact & shock resistance as well as an ergonomic shape of the coupling ring.
- . Suitable backshell in same plastic material allows IP68 sealing level.

High performance:

- . High impact & shock resistance: drop & crush resistance.
- . Easy, reliable & secure mating.
- . Excellent sealing performance:
IP68 (120 hours under 15m water) / IP69K.
- . High salt spray resistance.

8D Hermetic ELIO® Feedthrough

The first truly hermetic aluminum 38999 fiber optic feedthrough.

Truly hermetic:

- . Leak rate $<10^{-9}$ atm.cm³/s.

Weight saving:

- . Aluminum shell save 30 to 40% of weight vs stainless steel.

Single and multi way:

- . Unique multiway hermetic fiber optic feedthrough in the world.

Intermateable with Souriau's ELIO® connectors:

- . Airbus A380 spec ABS1379 qualified
- . Intermateable with ARINC 801 and EN4531 standards

ELIO® training

Need to **strengthen** your global knowledge in optical fiber?

Need **support** for ELIO®'s use in the field?

Target your ELIO® training!

Souriau, in partnership with various training companies, offers training which can be adapted to your needs:

Installation module

3
DAYS

Fundamentals of fiber optics

Theoretical and **technological** aspects on the installation of **ELIO®** in an **aeronautical environment**, notably:

- Handling precautions
- Optical faces inspections
- On-board optical measurement processes

Practical applications

Cabling module

5
DAYS

Fundamentals of fiber optic

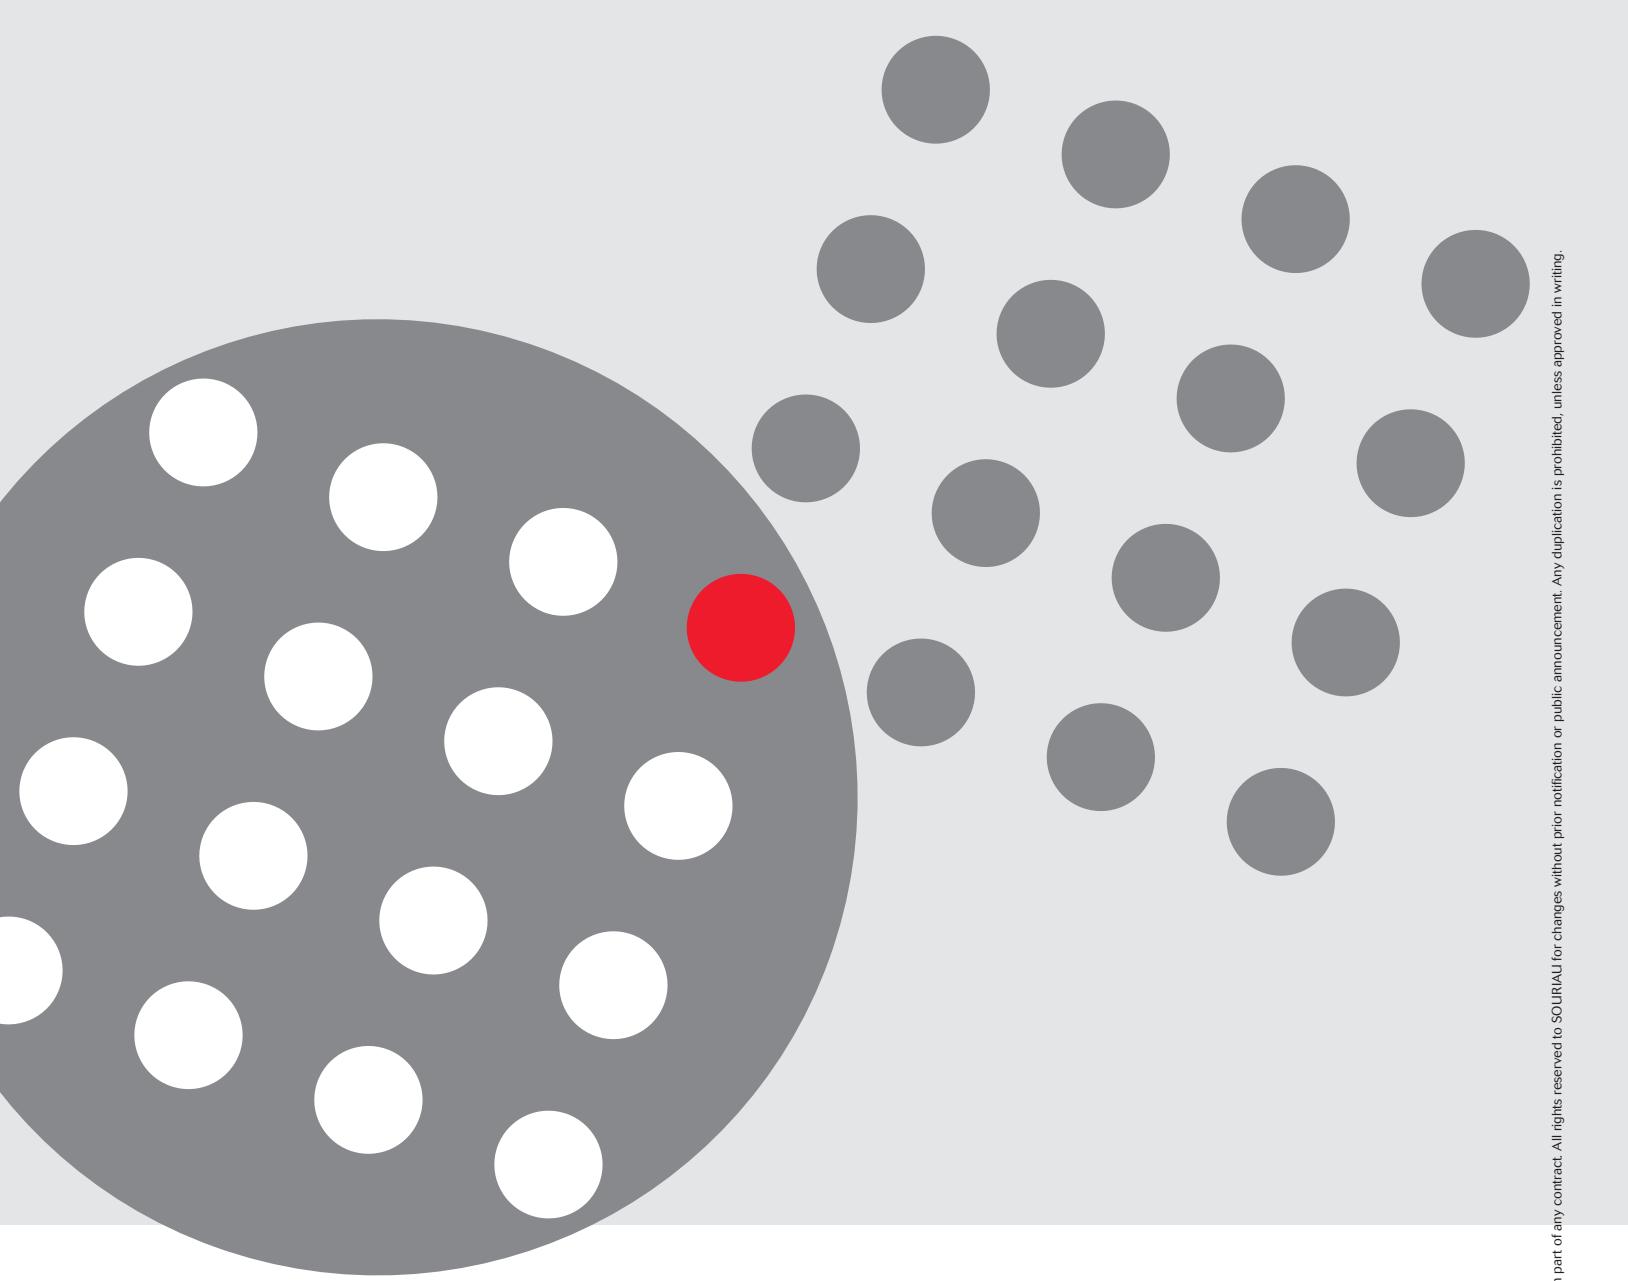

Theoretical and **technological** aspects on **ELIO®** contacts terminating, notably:

- Handling precautions
- ELIO® cabling process
- Control process by optical measurements

Terminating practical applications during two and a half days

For further information and a list of approved training companies, contact us at fiberoptics@souriau.com
